Past Performance

Federal Customers & Expertise

Commercial Customers & Partners

Support for Platform Engineering and DevOps Integration (SPEDI)
Department of Homeland Security (DHS)
Contract: IZ-SPEDI-16-052 | Performance Period: 10.01.2016 - Present | NAICS: 541511

WINTrio successfully accomplished numerous tasks for US Citizenship and Immigration Services (USCIS). Tasks covered a broad range of Cyber Security Services including Security Control Assessments, Vulnerability and Incident Management, Penetration Testing, DevSecOps and operational support. We supported Cloud Migration and Data Center Management, fully automated systems monitoring and systems design. WINTrio supports over 65 complex IT systems and performs security scans for nearly 80,000 assets monthly. Our automated approach to system deployments, cloud provisioning and security scans delivers costs savings and increased system availability and results in improved productivity.

"WINTrio is a very valuable asset to the Enterprise Infrastructure Division Security. They work tirelessly to meet all security objectives within the agency. They make sure that all requirements are met, OHS security controls are enabled, and that compliance is current. Without WINTrio, EID would be in a lot of trouble."
-   - IT Specialist, EID, DHS/USCIS

Walmart Development, Development Operations, and Support Contract
Walmart Innovations Lab
Contract: WM-DevOps-001 | Performance Period: 01.26.2018 - Present | NAICS: 541511

WINTrio provides a broad range of IT services for Walmart teams inside and outside of the US. Our services include systems and security architecture, Cloud and DevOps transformation, software and mobile app development, network Management and fully automated systems monitoring, predictive analytics, and help desk services. We support 50+ app teams with effective project management, business process reengineering techniques. Our domain knowledge and on-demand training enable our client to minimize waste and meet their transformation objectives within scope, schedule and cost.

"What I have seen is all praises about WINTrio team's work. The Team takes responsibility, speaks out their concerns, works hard and they have ramped up faster than everyone's expectations. Great job!"
-   - SVP Professional Services

Healthcare Federal Employee Program Operations Center (FEPOC) Modernization
Federal Employee Program Operations Center (FEPOC)
Contract: ALTA ITS-7861 | Performance Period: 10.16.2019 - Present | NAICS: 541618

WINTrio provides FEPOC with a viable and effective strategy to migrate off of legacy/mainframe healthcare apps encompassing critical business functions such as member enrollment, claims, and customer services management. FEPOC has more than 30 business apps – each containing personally identifiable information, healthcare data, and financial details. WINTrio leverages intimate healthcare knowledge with technical expertise and proven approaches to aid FEPOC in developing a methodical approach to modernizing their key applications. This results in cost savings, improved customer satisfaction, and increased data security.
